Mini Group

General English Mini
(20-30 lessons/max. 6 students)

The **limited** number of **students** in **class** and the additional lessons provide the opportunity for more **individual attention** and focus on the English systems and skills as well as **increased teacher-student contact time**. This course offers specific advantages, such as **more tailored teacher guidance, instant feedback** and **attention**.

Individual Programmes

Our individual programmes are devised according to the results of an individual needs assessment, whereby we summarise learners' prior learning experiences and challenges and provide them with detailed feedback on how to achieve their **individual learning goals**. Such learning goals may vary and would typically range from General English to English for Specific Purposes (**business, exam preparation** or **preparation for academic study**). Our dedicated team of teachers provide each and every learner with a unique **tailor-made** set of **academic resources** and **teaching tools** which help learners to develop their potential and overcome challenges.

English for Business

Adult Group Courses in Gozo & Malta

Mini Group Courses

This programme is designed for young adults and adults whose primary aim is to improve language proficiency in Business English or English for Work. The course concentrates on various professional domains, such as **business negotiations, telephoning, emailing, meetings, managing conflict** and other common scenarios typically encountered in everyday **work-related interactions**. Tailor made closed group courses

ESP

Assessment & Progress of Learning

We conduct a **pre-arrival online level test** to ensure correct student placement. **Progress** is monitored through a weekly test.

Such assessment scenarios are set in a student-friendly classroom atmosphere as part of our regular classroom routines. This ensures that students are able to showcase their best achievements through day-to-day language practice and production, while providing the academic team with the opportunity to set and prioritise the learning objectives for the following sequence of lessons.

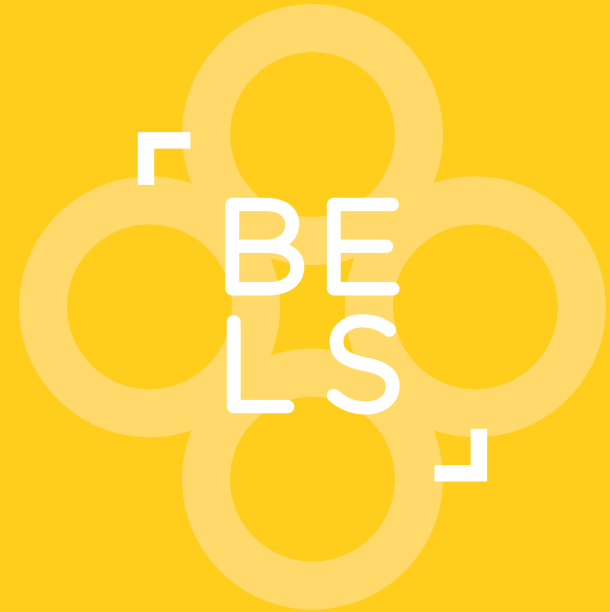

Summative assessment and student counselling

When students are ready to move up to the next CEFR level, they are required to sit for the change of level test. Our academic management team guides each student throughout

the process by discussing individual learning goals during a face-to-face meeting. The aim of such meetings is to evaluate individual learning progress achieved since the initial course commencement stage and guide students further. This process is an extremely valuable experience used to help students to identify their strengths and weaknesses as well as to set learning objectives in order to develop their language systems and skills.
